

Overhead Lift Systems for Single Flap Doors

Wind Push to Open Flap Door Systems

- Elegant unobtrusive overhead lift system
- Compact design requires minimal space, maximising storage area
- Smooth, controlled movement
- Paired options for light (up to approx 5 kg), medium (up to approx 14.5kg) and heavy (up to approx 18.4kg) doors
- Very heavy doors can be managed by using more than two systems (refer tables at right)
- For wide doors, a third single third lift is available to supplement pairs and prevent bowing (refer tables at right)
- Soft close mechanism for decelerated closing
- Two popular colour options; Classic White and Satin Metal Black
- Suits kitchens, bathrooms, living room and bedroom furniture, offices
- Stop device is pre-fitted to limit door opening to 85/86°. If removed, doors open to 94°
- Operates with Salice Magnetic Push to Open System – see page 4.53

White

Satin Metal Black
